I spent my holiday at Chali Tsanga a few weeks before visited my mother at Nagulo Mmitira. I worked in my own farms of one acre of rice and another acre of maize, all are growing good.

I found my mother is suffering with eyes problem for long time and she still in serious situation despite she went to Mumi hospital for treatment. She need you prayers to be healed by God and go ahead with farming activities. Also pray for us we are building the new church at home and I'm a member of building committee. We wish to finish before December of this year.

The College opened yesterday by evening Sunday services and we had started the New Semester to June 2010. My colleageans returned safe and my teachers, all we are prepared studies. I did well in last semester and I have confidence to re-do better in this term.

I acknowledge you for proceeding helping me in my studies. I thank God for the fellowship we have and real there is a need of making it active so that to proclaim the good news to many people. God keep blessing you on what your doing.
