Candace Widman

*Trinity Church has long served as a spot for community gatherings.*

Energy efficient windows help keep the room well lighted and comfortable in all weather conditions.

In 2008 the vestry of Trinity church recognized that its parish hall gathering space needed a “face lift!” Joining with the Sargent Foundation for Episcopal Ministries, the vestry pledged a matching grant to re-carpet, acquire new furniture, paint the interior walls a lighter color, and install new, energy efficient windows. Parishioners volunteered their services to do much of the work.

Comfortable seating for meetings of all sorts and sizes, including a conversation pit around the fireplace
